

Experiences that deliver.

Matt David presents CampervanDisco · Press Kit 2026

THE CONCEPT

A DJ Experience Like No Other

CampervanDisco is a vintage Volkswagen campervan converted into a fully equipped, self-contained DJ stage. With a pivoting clamshell roof that transforms the vehicle into a performance space, it arrives at an event and immediately becomes the centrepiece of it.

Part visual landmark, part social magnet, part music experience — CampervanDisco creates the kind of spontaneous atmosphere that makes people stop, stay, and come back. It has been deployed across community activations, residential development events, outdoor markets, and public spaces across London, consistently generating footfall, dwell time, and shared energy that organisers remember.

We don't just press play... We engage.

THE DJ

Matt David

Matt David is a London-based DJ, broadcaster, music producer, and the creator of CampervanDisco. With over thirty years of experience across commercial, underground, and specialist music environments, he has built a reputation for technical precision, deep musical knowledge, and an instinctive understanding of how music shapes the energy of a room. At his peak performing approximately 150 shows a year, his career has spanned Kiss FM, Vibe 107.6, remix and production work for DMC featuring artists including Britney Spears, Kylie Minogue, Beyoncé, and Fleetwood Mac, commercial releases through EMI, and screen credits across EastEnders, Downton Abbey, and the Harry Potter, Fast & Furious, Marvel, and DC film franchises.

Today Matt performs across a wide range of environments — from CampervanDisco activations and outdoor festivals to club nights, corporate events, private functions, and intimate venue bookings. Whatever the setting, the philosophy is the same: great DJing is not simply about playing records. It is about creating moments, shaping environments, and bringing people together through music.

MUSIC STYLE

- Warm, soulful, groove-led disco and house — five decades of club classics

- Selected for feel, not familiarity — well-known tracks alongside forgotten gems
- Energy built through layering and progression, not drops or peaks
- Live stem separation — vocals, basslines, strings combined across recordings in real time
- Adaptable across environments from outdoor community events to indoor club bookings

BOOKING OPTIONS

Three Ways to Book

CampervanDisco — The Full Experience

Matt David DJs from the open campervan, fully loaded with professional sound system and light effects. The complete package — music, atmosphere, and a visual centrepiece all in one.

Ideal for: Community events, outdoor festivals, residential activations, markets, hospitality, garden parties, and boutique events.

Campervan Dry Hire — Experiential Platform

A customisable activation space. Available for conversion into a coffee bar, food truck, sampling station, cocktail bar, or creative activation space.

Ideal for: Brand experiences, pop-up retail, product launches, and creative activations.

Matt David — Standalone DJ

Matt David available independently for indoor events, club nights, private functions, and any booking where the campervan isn't needed. Thirty-five years of experience, available without the van.

Ideal for: Indoor events, corporate functions, private parties, and club bookings.
